Management Development Program on Legal Aspects of Contract Management

The Centre for Continuing Education at Adani University organized a one-day Management Development Program (MDP) on Legal Aspects of Contract Management on 27 February 2026 at the university campus. The program aimed to enhance professionals' understanding of commercial contracts and their practical implications in business operations. The session was conducted by Dr. Krishna Bipin Mehta, an academician with extensive experience in civil litigation and intellectual property rights. Key topics included provisions of the Indian Contract Act, 1872, effective contract management practices, dispute resolution mechanisms, and strategic contract drafting. The program saw active participation and provided valuable insights into managing contractual risks and compliance.

Cyber Sphere Club Conducts Hands-on Session on Network Scanning

The Cyber Sphere Club conducted Module 02 of the Cyber Security Foundation Course on 27 February 2026, focusing on Network Scanning and Basic Penetration Testing. The session witnessed active participation from over 70 students. Participants received hands-on training in network reconnaissance using Nmap, learning techniques such as port scanning, service identification, and operating system detection. The session also introduced penetration testing concepts through demonstrations using Metasploit in a controlled lab environment. The interactive session strengthened students' understanding of cybersecurity tools, ethical hacking practices, and practical security assessment techniques.
