Workshop on IoT with NodeMCU and ESP32 Empowers Students with Hands-on Learning

An IoT workshop on NodeMCU and ESP32 was successfully conducted by Dr. Jignesh Patoliya (Manager at e-Infochips, Gandhinagar). The event was organized by the faculty members of FEST (Dr. Diya Vadhvani, Dr. Akanksha Srivastava, and Dr. Ritika Ladha). The workshop provided more than 50 student participants with hands-on experience in IoT-based hardware development and aimed to introduce the fundamentals of IoT, microcontrollers, and cloud integration, helping them understand the practical applications of these technologies. Under expert guidance, participants successfully built and tested their projects.
