## Adani University Confers Degrees on 87 Graduates: Two Bag Gold Medals

Adani University held its 2<sup>nd</sup> Convocation ceremony for the graduating batches of 2023-2025. The university conferred degrees upon 87 students including 8 M.Tech graduates in Construction Engineering and 79 MBA graduates in Infrastructure Management. Gold medals were awarded to Bhalodia Kaushik Arjanbhai (MBA- Infrastructure Management) and Tandel Vaishnavi Piyush (M.Tech in Construction Engineering and Management) and a silver medal to Jaiom Joshi (MBA- Infrastructure Management) for academic excellence and overall performance. Prof. Dhaval Pujara, Provost, Adani University presented annual report of the university. Prof. Arun Kumar Sharma, Vice President, Adani University graced the occasion with his presence and blessed the graduates. Dr. Priti G. Adani, President, Adani University presided over the function. whereas Mr. Savi S. Soin, Senior Vice President & President, Qualcomm India, graced the event as the Chief Guest.

## MoU Signed Between Adani University and OIZOM

Adani University signed an MoU with OIZOM (Oizom Instruments Pvt. Ltd.) on 27 November 2025 to advance collaborative research in environmental engineering. The partnership aims to explore innovative industrial solutions, exchange technical expertise, and jointly develop research proposals. Key areas include performance evaluation of air quality monitoring systems, development of novel sensor technologies, and studies on urban air quality, odour monitoring, and hotspot identification. The MoU also opens opportunities for student internship projects, strengthening industry–academia linkages and fostering hands-on learning.

## Academic Visit to VSSE, ISRO Ahmedabad

Students of Integrated BTech CIE and MBA PM, accompanied by Prof. (Dr.) Harishkumar Varia, visited the Vikram Sarabhai Space Exhibition Centre at ISRO Ahmedabad as part of their 'Geomatics and Digital Mapping' course. The visit enhanced their understanding of satellite systems, materials used in space structures, launch vehicle technologies, and planetary missions. Students connected classroom concepts such as remote sensing, orbital mechanics, and digital mapping with real-world applications. The experience enriched their appreciation of India's space achievements and highlighted the critical role of satellite-based data in national development and spatial decision-making.

## Gati GearUp Challenge Quiz – Accelerate your Mind

The Gati Gear Up Challenge Quiz, organised by the Gati Club, was successfully conducted today at FMS, Adani University. Students from MBA and B. Tech actively participated and demonstrated quick thinking, teamwork, and strong knowledge related to transport and mobility. The quiz was hosted on Kahoot in two competitive rounds, and the excitement kept increasing as teams competed closely for the top spot. The event was highly engaging, and everyone enjoyed the lively atmosphere. The cooperation and guidance of Dr. Preeti Rathi and Dr. Rachna Gangwar played a major role in smooth execution. Overall, it was a memorable and successful learning experience.

## Dr. Krupali Donda Inspires Students with Insights on Global Research Opportunities at SVNIT

Dr. Krupali Donda delivered a guest talk during Capstone Connect 6.5, organized by the Research and Innovation Affairs Council (RIAC), at Sardar Vallabhbhai National Institute of Technology, Surat. Her session focused on global research opportunities for undergraduate students, highlighting fully funded international fellowships, global internships, exchange programs, and opportunities to work in leading research laboratories worldwide. The talk encouraged students to explore diverse research cultures, build strong foundational skills, and broaden their academic outlook through international exposure.

Research Talk at the First International Conference on

## Artificial Intelligence in Structural Engineering at Castello del Valentino, Turin, Italy

Dr. Rohan Majumder (Faculty, FEST) delivered a research talk at the First International Conference on Artificial Intelligence in Structural Engineering at Castello del Valentino, Turin, Italy, on the topic "Prediction of robust Knockdown Factors (KDFs) and sensitivity analysis in truncated conical shells: An Artificial Neural Network (ANN) and Support Vector Regression (SVR) based Approach." The talk highlighted the performance accuracy, efficiency, sensitivity analysis and other important aspects of ANN and SVR in post-buckling analysis of isotropic as well as composite shells with special emphasis on cones subjected to axial compression and external pressure.

## Empowering Students Through Robotics: Two-Day SSIP 2.0 Workshop

**Adani University Robotics Club** organized a two-day “Introduction to Robotics” workshop-cum-competition under the SSIP 2.0 initiative. The event aimed to develop the next generation of robotics and embedded systems engineers through theory sessions and hands-on training on robotic fundamentals and emerging research. The workshop promoted **peer-to-peer learning**, enabling students to collaborate, share knowledge, and strengthen practical understanding. Participants engaged in interdisciplinary learning across electronics, computing, and communication, reflecting the growing industry relevance of robotics in healthcare, agriculture, manufacturing, and smart cities.

## Inspiring Lessons on Success: Expert Talk by Ajay Kumar Tomar

Adani University organised an expert session for FMS students led by Mr. Ajay Kumar Tomar on personal career development. His simple yet powerful ideas, supported by real-life examples, made the session highly impactful. He shared the inspiring story of Cliff Young and highlighted figures like Peter Drucker, Sachin Tendulkar, and Kapil Dev to show how struggles shape success. He discussed personal “horsepower,” the effects of screen time, and the importance of clear goals. His insights encouraged students to understand their strengths, control their mindset, and stay focused on continuous growth.

Adani University to Host

## 3<sup>rd</sup> International Conference on Infrastructure Development and Sustainability 2025

Adani University in partnership with Adani Cement is set to host the 3<sup>rd</sup> International Conference ICIDS on “Rethinking Infrastructure: Innovation, Sustainability, and the Future of Global Skill Development” from December 18-19, 2025, at Adani University. Mr. Vinod Bahety, CEO, Cement Business, Adani Group, will grace the event as the Chief Guest. The conference will provide a platform for leading researchers, industry experts, policymakers, and innovators from across the world. The event will witness three panel discussions, and a fireside chat on ‘The Road to Net Zero: Integrating Clean Energy into Tomorrow’s Infrastructure along with the Plenary Sessions.
