Mastering Time: Prof. Dhaval Pujara Inspires Students to Overcome Procrastination

On June 30, 2026, Adani University's Faculty of Management Sciences (FMS) hosted an engaging session on time management led by Prof. Dhaval Pujara, Provost, Adani University, with an introduction by Dr. Namita Pragya. The session explored the causes of procrastination, including fear of failure, pressure, and lack of motivation, while highlighting the role of discipline, preparation, and self-management in achieving success. Through a time-management assessment and an interactive "Past vs. Present" activity, students reflected on their habits and learned practical strategies to prioritize tasks, overcome procrastination, and build productive routines for academic and professional excellence.

"Know Your Batchmates – Cut the First Turf" Builds Connections and Team Spirit

On June 30, 2026, Dr. Baishali Mitra and Dr. Manju Raisinghani conducted an engaging ice-breaking session to help the incoming batch connect and settle into their new academic environment. Through a lively speed networking activity, students introduced themselves, discovered shared interests, and built new connections. This was followed by the *Build the Infrastructure Challenge*, where teams designed creative models using limited resources, fostering collaboration, problem-solving, and leadership. The session concluded with a reflective discussion on teamwork, communication, and ownership, leaving students with stronger peer bonds and a greater sense of belonging.

Attitude: The Ultimate Competitive Advantage for Success

On July 1, 2026, as part of Foundation Day – Day 3, Prof. Dhaval Pujara, Provost, Adani University, delivered an inspiring session on “Attitude: Your Greatest Competitive Advantage.” He emphasized that a positive attitude, coupled with resilience and continuous learning, often determines success beyond knowledge and skills. Through interactive discussions and real-life examples, students explored the role of attitude in leadership, decision-making, relationships, and career growth. The session encouraged them to cultivate a growth mindset, discipline, accountability, emotional intelligence, and ethical values as essential foundations for personal and professional excellence.

Fallout Shelter Simulation Strengthens Decision-Making and Leadership Skills

On July 1, 2026, the Foundation Programme concluded with an engaging Management Games session led by Prof. Anindita Chatterjee, featuring the thought-provoking "Fallout Shelter" simulation. Working in teams, students navigated a crisis scenario that required them to make difficult decisions under uncertainty, balancing limited information with competing priorities. The activity fostered critical thinking, ethical reasoning, teamwork, negotiation, and leadership while encouraging participants to recognize biases and appreciate diverse perspectives. A reflective debriefing helped students connect the experience to real-world managerial challenges, highlighting the importance of responsible leadership, collaboration, and effective decision-making.

Creating Safe Spaces: Fostering Inclusion, Respect, and Responsibility

On July 1, 2026, as part of the Foundation Programme, Dr. Krishna Mehta conducted an insightful session on "Creating Safe Spaces: Understanding Boundaries and Inclusion." She highlighted the importance of fostering respectful, inclusive, and psychologically safe environments in academic and professional settings. The session introduced key provisions of the POSH Act, 2013, while emphasizing diversity, mutual respect, empathy, and healthy boundaries. Through interactive discussions and practical scenarios, students reflected on unconscious bias, accountability, and professional ethics, inspiring them to contribute to safe, inclusive, and welcoming communities for everyone.

Infrastructure and Nation Building: Insights from Shri Jagdish Prasad Gupta, IAS (Retd.)

On July 6, 2026, Shri Jagdish Prasad Gupta, IAS (Retd.), delivered an insightful lecture on "Infrastructure Development and Nation Building" as part of the Foundation Programme. He emphasized the vital role of infrastructure in driving economic growth, social progress, and national development, highlighting its scope beyond physical assets to include digital, social, and logistical networks. Drawing on examples such as Dubai's transformation and Gujarat's Narmada Project, he illustrated the impact of strategic investments. He also introduced the "Mind-Paper-Ground" framework, inspiring students to appreciate the importance of vision, planning, and effective execution in nation-building.

Inspiring Young Minds: An Interactive Leadership Session

On July 8, 2026, the Batch-1 MBA (ACM) students had the privilege of interacting with Mr. Jugeshinder ("Robbie") Singh, Group CFO of the Adani Group. Sharing his inspiring professional journey, he encouraged students to embrace ownership, continuous learning, and an entrepreneurial mindset. He emphasized that lasting success is built on competence, commitment, the right attitude, and respect for people. The session offered valuable leadership insights and practical guidance for aspiring managers. Mr. Mohan Jadhav, Head Group HR, and Mr. Santosh Abraham also addressed the students, enriching the interaction with their perspectives and experiences.

Faculty Member Receives ANRF International Travel Support Grant

Adani University congratulates Ms. Aasna Chauhan, Ad-Hoc Assistant Professor, Faculty of Sciences, on receiving the prestigious International Travel Support (ITS) grant from the Anusandhan National Research Foundation (ANRF), Government of India. The grant will support her participation in the Computational Methods in Applied Mathematics (CMAM 2026) conference, to be held from July 20–24, 2026, at TU Wien, Vienna, Austria. She will present her research on robust numerical methods for complex differential equations with applications in neuroscience, control theory, signal transmission, and population dynamics, fostering international collaboration and advancing research in Computational and Applied Mathematics.
