## Academic Visit to DMIHER: Key Insights and Future Opportunities

An academic delegation from Adani University visited Datta Meghe Institute of Higher Education and Research (DMIHER) on January 9–10, 2026, to gain insights into best practices in academic governance, research, outcome-based education, accreditation, and quality assurance. The visit enabled meaningful interactions with university leadership, faculty, researchers, and students, and included exposure to DMIHER's academic and research ecosystem. Discussions identified potential areas of collaboration, particularly in healthcare-focused research, joint academic events, internships, and experiential learning initiatives. Strong IQAC-led processes, structured curriculum and assessment practices, standardized documentation, and alignment with NEP 2020 emerged as key strengths.

## Celebration of Kite Flying Festival with Joy and Togetherness

Adani University celebrated the Kite Flying Festival on January 12, 2026, with great enthusiasm and festive spirit at the university sports ground. The event brought together students, faculty members, and staff to experience the joy of tradition, unity, and cultural vibrancy. The sky was filled with colorful kites, symbolizing freedom, positivity, and new aspirations, while music and cheerful interactions added to the lively atmosphere. The festival provided a refreshing break from routine academic life and strengthened the sense of community within the campus. Such celebrations reflect Adani University's commitment to holistic development by promoting cultural values, togetherness, and a joyful campus life.

## Bid to Build: Where Strategy Meets Structural Innovation

The Cityscape Club, Faculty of Management Sciences, Adani University, successfully hosted its first experiential event, "Bid to Build – Constructing Future Infrastructure" on 8<sup>th</sup> January 2026. The competition encouraged students to think like developers and planners by integrating strategic bidding with hands-on construction. Teams worked within limited budgets, bid for materials, and responded to surprise twist cards while building infrastructure models within a fixed time frame. The activity tested creativity, teamwork, and real-time decision-making skills. Overall, the event provided a dynamic learning experience, effectively bridging theory with practice and laying a strong foundation for future Cityscape Club initiatives.

## Celebration of National Youth Day with Inspiring Student Participation

Adani University celebrated National Youth Day on 12<sup>th</sup> January 2026 with great enthusiasm by organizing a 3-minute Student Performance Event on the theme "From Cultural Roots to Digital Power: Empowering Youth for a Self-Reliant Nation." The three-minute format encouraged clarity of thought, confidence, effective time management, and communication. The event witnessed enthusiastic participation from students across all disciplines, who shared innovative ideas on nation-building, digital transformation, and cultural sustainability through concise and impactful presentations. At the conclusion of the event, the top three prizes were awarded to the best performers in recognition of their originality, clarity of expression, and impactful delivery, motivating students to strive for excellence and innovation.

## Rising Asia & Resurgent India

The Faculty of Management Sciences (FMS), Adani University, conducted an expert session for MBA students on the theme “Rising Asia and Resurgent India,” delivered by Mr. Ajay Kumar Tomar. He explained Asia’s dominance in the global economy before the 18th century and the subsequent rise of the US and Europe, driven by innovations such as electricity, the steam engine, and analytical thinking. Highlighting Asia’s resurgence, he noted that three of the world’s top five economies and seven of the fastest-growing economies are from Asia. He concluded by sharing Japanese philosophies—Wabi-Sabi, Kaizen, and Kintsugi—as lessons for sustainable growth.

## Practical Insights into Logistics Decision-Making

The Faculty of Management Sciences (FMS) at Adani University conducted an expert session for MBA students as part of the CMMML subject. Captain Bijay Shekhar, Head – Logistics (AEL Coal), and Mr. Nishit Bhatt, International Trading – Coal, delivered the session. Prof. Mukesh Parikh arranged the session at Adani University. During the session, the experts presented students with a real-life logistics case study designed to identify an optimal logistics solution. The key takeaway from the session emphasized that an optimal logistics solution balances efficiency, feasibility, and service levels, rather than focusing solely on cost.
