## Farewell Ceremony – B.Tech. CSE (AI-ML) Batch of 2025

On May 15, 2026, the farewell ceremony for the VIII semester B.Tech. CSE (AI-ML) passing-out batch was held, marking a heartfelt celebration of their four-year academic journey. The batch holds special distinction as the first graduating CSE cohort of the University, the founding pillars of the department. Provost addressed the students with guiding mantras for life, emphasizing respect for parents, hard work, persistence, and upholding ethics and morals. Dean FEST shared an emotional connection with the batch, having accompanied them since admission. The event concluded with photographs and warm faculty interactions. The University wishes the graduating batch a bright and successful future ahead.

## Farewell Gathering 2026 – Faculty of Engineering Sciences & Technology

On May 16, 2026, the Department of ICT and CIE organized a Get-Together and Farewell Gathering at the University Auditorium for graduating students of B.Tech. (ICT), B.Tech. (CIE), and M.Tech. (CEM) programs. The event held special significance as the 2026 batch marks Adani University's pioneering undergraduate cohort. The program featured welcome addresses by HoDs, an inspirational address by Dean (FEST), well-wishing remarks by the Registrar, and a blessing address by the Provost. Students shared heartfelt reflections, followed by an Alumni Association interaction facilitated by the Dean (i/C) of Student Affairs. The event concluded with a group photograph and high tea.

## Summer School Session Introduces Engineering Drawing and AutoCAD Fundamentals

On May 14, 2026, the Centre for Continuing Education (CCE) at Adani University conducted “CADLaunch: Foundations of Engineering Drawing” under Summer School 2026. The program was attended by 14 participants from various schools and diploma backgrounds. Led by Dr. Ankur Kapoor and Dr. Partho Mukherjee, the session combined hands-on manual engineering drawing with practical exposure to AutoCAD software. Participants explored 2D and 3D drawing concepts, object visualization techniques, and basic drawing and editing tools through an engaging practical learning experience.
