# Successful Year for AWS Academy at Adani University: Achievements and Milestones

The AWS Academy at Adani University concludes another year replete with activities, involving students, teachers, and industry specialists. Approximately 200 students of CSE(AI-ML) and ICT are enrolled in 5 courses, and around 35 have graduated to date, marking a significant milestone for the academy. Key highlights of the enrollments include acquiring skills through AWS Cloud Architecting and Cloud Development, AWS Academy Machine Learning Foundations, and Cloud Foundations. The Learner Labs and AWS Academy Lab Project - Cloud Security Builder are components of laboratory practices for diverse courses. The efforts under the academy have brought accolades to students like Dharmay Shah from 5th semester CSE (AI-ML) who pursued 5 courses, graduated 4 and Globally Certified for Cloud Practitioner.

## Multimodal Logistic Summit to Foster Industry Collaboration and Placement Opportunities

A summit on Multimodal logistics was conducted at Radisson Kandla, GandhiDham by knowledge partners, India Sea trade News, for which Adani Ports and SEZ were one of the sponsors. The summit was attended by Dr. Vidya G Mohan, Faculty (FMS) and Mr. Amish Soni, CDC-head. The event aimed to facilitate an open discussion among policymakers, industry professionals, and academics to address the key challenges in the digitization of the logistics sector and to promote ease in conducting logistics business. The goal was to explore partnerships and engagement possibilities for projects, internships, and placements of Adani University students.

## Tacheometry Survey Project at Belvedere Golf Club by B. Tech. Students

B.Tech. 3rd Semester CIE students conducted a Tacheometry Survey at Belvedere Golf Club, Adani Shantigram. A group of 18 students participated in the survey under the guidance of Prof. (Dr.) H. R. Varia, Mr. Kartik Umat, and Mr. Jigar Jogi. The project covered an area of approximately 15,000 square meters of the golf course. The hands-on experience provided students with a deeper understanding of tacheometry surveys, contour mapping, and the topographical requirements for designing a golf course. The project motivated students to apply theoretical knowledge in a real-world context, enhancing their learning.
