Adani University

Centre for Continuing Education

(AU-CCE)

Adani University is a research-intensive educational institution set-up with the objective to empower by focusing on real-world problems and contribute to global sustainability. With its futuristic & inspirational thought leadership from Adani Group, we aim at interdisciplinary excellence.

Adani University - Centre for Continuing Education (AU-CCE) is poised to enable, empower, and enhance the working professionals for their continuous learning process. AU-CCE brings to you the gamut of global experiences, current knowledge trends, and specific interventions at junior, mid- and senior management through its various programs as below:

- > **Short-Duration Programs**
- > **Long-Duration Programs**
- > **Customized Programs**

We believe in empowering individuals by upgrading and skilling them to make them competitive by understanding best practices of industry and current trends and updates. We are aimed at developing careers for the individuals by offering value-added training programs.

GST

Still a curiosity?

GST - Goods and Services Tax, which came into effect since 1st July 2017, aims to subsume many indirect taxes levied on goods and services by the Indian Central and State Government, and is proposed to be a comprehensive indirect tax levy on manufacture, sale, and consumption of goods as well as services at the national level.

- Its main objective is to subsume many indirect taxes. It was introduced to overcome the existing flaws in the erstwhile tax laws, and creating efficiency in tax administration.
- By amalgamating many Central and State taxes into a single tax, it would mitigate cascading or double taxation in a major way and pave the way for a common national market.
- From the consumer point of view, the biggest advantage would be in terms of a reduction in the overall tax burden on goods, which is currently estimated at 16%-18%.
- It makes products competitive in the domestic and international markets.
- GST being transparent in nature, it becomes easier to administer.

Even after 7 years of implementation of GST Act, yet it is constantly being amended with many new required updates which individuals, companies and professionals need to know about.

About the Program

This is the 11th Batch of Open Program, where experts shall guide on how GST implications on business can be handled strategically and what are the major issues to be pondered upon while framing financial policies of the business.. This program deals with some very crucial aspects of GST law including ITC, Valuation, Place of Supply, Reverse Charge etc.
