Adani University – Centre For Continuing Education (AU-CCE)

Adani University is a research-intensive educational institution set up to empower by focusing on real-world problems and contributing to global sustainability. With its futuristic & inspirational thought leadership from Adani Group, we aim at trans-disciplinary excellence.

AU-CCE (including Executive Education) is poised to enable, empower, and enhance your learning appropriate to your profession. The Centre offers a wide spectrum of programs, that are specifically designed for practicing managers, at various points in their careers, helping them up-skill and progress, and be the leader that their organization, needs them to be. These programs are designed and delivered by a rich pool of distinguished faculty, industry experts, and highly experienced practitioners, to meet various learning requirements of practicing managers.

AU-CCE brings to you the gamut of global experiences, and current knowledge trends through its various programs as below:

About the Program

Technical and functional skills alone are not sufficient for success. Strong financial skills can make a difference between success and failure in today's business environment.

Centre for Continuing Education at Adani University is launching this two-day program which would enable professionals, especially from functional areas such as Sales, Marketing, Production, Procurement, Operations, etc. to gain an extensive working knowledge of finance principles in an easy manner enabling them to make critical business decisions involving cost-reduction, budgeting, projects forecast, growth strategies etc. Participants would be able to understand and analyze financial statements.

Program Contents

Module-I: Basics of Financial Accounting

- Understanding Financial Statements
 - Balance Sheet
 - Profit & Loss Statement
 - Cash Flow Statements
- Profit Vs Cash
- Reading Financial Statements
- Reading Key Accounting & Financial Ratios including ROCE, ROI, ROA

Module-II: Managerial Accounting

- Cost concept and cost classifications
- Marginal Costing
- Cost-Volume-Profit Analysis and Break-even Analysis
- Relevant costing for managerial decision-making

Module -III: Working Capital Management

- Managing Cash / Inventory and Receivables
- Working capital cycle
- ABC Analysis – Method of Inventory Control and Management

Module -IV: Capital Budgeting

- Capital Budgeting Techniques
 - Net present value
 - Pay-Back Period
 - Internal rate of return

Learning Objectives:

- To develop financial skills so that professionals from different functions can understand the financial implications of the decisions they take in an organization.
 - To Understand and analyze financial statements and be in a better position to discuss relevant financial issues with finance managers/stakeholders.
-

For Whom

This program would be useful for executives and entry-level managers having work experience less than 10 years from non-finance functions like:

- Techno-commercial
 - Manufacturing
 - Business development
 - Sales and marketing
 - Human resources
 - Projects, etc.
-

Engagement Model

Faculty Team

CA Mayur Shah

He is a Professor of Practice in Finance. He has over 35 years of experience of working in the different industries such as Healthcare, Pharma, Textiles, Ports and SEZ and Education.
